

# Happy Face Biscuits

## You will need:

A packet of round Vanilla Wine biscuits

$\frac{1}{2}$  cup Margarine

1  $\frac{3}{4}$  cups icing sugar

1 teaspoon vanilla essence

Hot water

Food colouring

Pebbles

## Method:

Make the icing by beating the margarine in a bowl until light then beat in the icing sugar and vanilla until smooth and creamy. Mix in a little hot water, a teaspoon at a time, to make a spreadable icing.

Put a small amount of the icing into a bowl, add a couple of drops of red food colouring to this and mix.

Add a couple of drops of food colouring of another colour to the remaining icing - yellow is often a good colour as it is bright and cheerful.

Spread the yellow icing on to the biscuit so that it smoothly covers the top layer.

Put the red icing into a piping bag (a plastic bag with a small hole cut in one of the corners can be easily used). Squeeze the red icing out to make a smile on each biscuit.

Add two pebbles to create eyes.

Your Happy Face Biscuit is now ready to eat!

To make it presentable to give away, place in a small cellophane bag and tie the bag at the top with ribbon.
